

Think Big - Start Small - Scale Fast

CellExchange to host New England BEA Users Group

Cambridge, MA, May 24, 2007 – Burc Oral, PhD, Senior Technical Architect at CellExchange, is restarting the New England Users Group [NEBUG]. The meetings will be held monthly to promote learning, sharing and collaboration among the BEA users in New England Area. For further information about the users group, future meetings, or directions, please visit <http://groups.google.com/group/nebug>.

The first meeting will take place in the CellExchange Riverside Conference Room in Cambridge, MA, June 5th, 2007, from 5:30pm-8pm. Meeting topics are Entitlements Management with AquaLogic Enterprise Security and BEA's Unified Security Service. David Garrison, a Senior Product Manager for AquaLogic Enterprise Security, will speak about the entitlements problem, what entitlements solutions do, and how BEA's AquaLogic Enterprise Security is solving the entitlements problem for large enterprises. Neil Smithline, BEA's WebLogic Security Architect, will discuss how the company has developed a highly functional, customizable, and embeddable security framework.

Founded in 1999, CellExchange, Inc., is a Cambridge-based small-business systems integrator that assembles innovative IT solutions. CellExchange focuses especially on high-volume transactional systems integrated with the legacy infrastructure. The company uses standards-compliant technologies and a disciplined collaborative process to enable rapid incremental delivery. CellExchange is the only small business contributing member of the Service-Oriented Architecture (SOA) Consortium. For more information, visit <http://www.cellexchange.com>.

BEA Systems, Inc. is a world leader in enterprise infrastructure software, delivering powerful standards-based platforms for building enterprise applications and managing Service-Oriented Architectures even in heterogeneous IT environments. For more information about BEA, please visit <http://www.bea.com>.
